

# Painkiller

Rozzi Crane

She's my painkiller  
All the side effects are there  
But I don't even care  
She's my painkiller, yeahHey you boy  
Why're you so sad?  
Gimme just a minute  
I'ma make you so gladPrescribe this pill,  
I know you ain't have  
Tell me where it hurts  
And I'll fix it like thatOh, there goes the pain  
I can be your Codeine  
Anytime you call me  
I just wanna hear you say  
Ain't nothing else to take it  
Nothing else you need, 'causeShe's my painkiller  
All the side effects are there  
But I don't even care  
She's my painkiller  
She's my painkillerRight now,  
I know you're so sick  
And no one else can understand  
But boy, I feel it, that's rightGot me  
Through thin and through thick  
I'm your IV baby,  
'til the last dripAnd oh, there goes the pain  
Feel me in your bloodstream  
See you in the morning  
I just wanna hear you say  
Ain't nothing else to take it  
Nothing else you need, 'causeShe's my painkiller  
All the side effects are there  
But I don't even care  
She's my painkiller  
She's my painkiller (I could be your, I could be your painkiller)Yeah, I've got something for you  
'Cause I could see you fading  
Yeah, I've got something for youYeah, I've got something for you  
'Cause I could see you fading  
Yeah, I've got something for youShe's my painkiller (I could be your, I could be your)  
She's my painkiller (Killer, killer, killer)YeahShe's my painkiller

All the side effects are there  
But I don't even care She's my painkiller  
She's my painkiller  
(I could be your, I could be your painkiller)  
(I could be your, I could be your...)
