

# Women Like Me (Don't Like Girls Like You)

## Amber Lawrence

You walk into the party and there's no denyin' that you're  
kinda pretty  
you giggle when you order your wine or your vodka  
and the men act silly  
even my man too  
and that's why women like me don't like girls like you  
You say it's gettin' cold 'cos you forgot your coat  
and you borrow his  
but you won't return it 'til your perfume's through it  
'cos it's a great fit  
but his wife won't think it cute  
and that's why women like me don't like girls like you  
Ohh never have and never will like girls like you  
no never know and never trust what you might do  
you think the world revolves around you  
love this song is written 'bout ya' too  
and that's why women like me don't like girls like you  
You're just the girl from work but you're a full time flirt  
and you ask my man for a ride  
and then you send him a text it says thanks you're the best  
with a kiss and a smile  
so I send one back too  
yeah that's why women like me don't like girls like you  
Ohh never have and never will like girls like you  
no never know and never trust what you might do  
you think the world revolves around you  
love this song is written 'bout ya' too  
and that's why women like me don't like girls like you  
Interlude  
Ohh never have and never will like girls like you  
no never know and never trust what you might do  
you think the world revolves around you  
love this song is written 'bout ya' too  
and that's why women like me don't like girls like you  
women like me don't like girls like you  
So when we're way past thirty and things aren't so perky  
all that matters is inside  
I'll be there for you  
cost that's when women like me will like girls like you

Uh uh
