

# Always And Forever

[Kenny Rogers](#)

Always and forever, each moment with you  
Its just like a dream to me that somehow came true  
And I know tomorrow will still be the same  
Cause we got a life of love that wont ever change Every day, lend me your own special way  
Melt my heart away with a smile  
Take time to tell me you really care  
And well share tomorrow together There'll always be sunshine when I look at you  
Its something I cant explain, just the things that you do  
If you get lonely, call me and take  
A second to give to me the magic you make Every day, Ill always love you forever  
Every day, baby, baby, baby, Ill love you forever  
Ill always love you forever  
Together, forever
