

Tabula Rasa

Revent

Will we stay asleep and let the world die when the party is over?

Will we be awake to watch our fall?

Hiding in the shade or wrapped up in the clouds
Just close your eyes and I'll tell you when it's over

Tiptoe to your dream
Erase the history
And see the world as what we want it to be!

Watch the fountain drain
Watch the air deflate
Watch the season change
These delusions keep me warm!

You see the writing on the wall?
No one's gonna save you now
Cause there's too many people causing too many problems
In our torn up little world
In our tragic fragile damaged little world

Watch the fountain drain
Watch the ground give way
Watch the season change
These delusions keep me warm!
