

# My Vagina

## NOFX

My vagina has two sets of lips  
But I don't get monthly blood drips  
My vagina hardly even usedMy vagina's got lots of extra skin  
They took my outtie and made it an in  
Changing Donnie to Marie OsmondOperation, sex-cessful  
But now I gotta pee through a miniature hole  
Gotta remember to put the seat down  
And when I wipe my ass, I go from front to back  
'Cause I don't want a bladder infectionI never thought I'd miss my vas deferens  
I trade it in for a pair of used cans  
Now I get to hang with lesbiansOperation, paid upfront  
Now I show all my friends my new designer cunt  
They think I'm kinda weird but that's okay with me  
'Cause now I kick their ass, played from the ladies team  
There's nothing finer than having a vagina
