Beautiful Messed Up World

Anastacia

The world's gettin' worse, gettin' worse so they say
But I just don't see it
'Cause I see a miracle everyday
When I look in my own fate
I'm tired of all this pain and negativity
I know it's tough for us all
Don't tell me I can't fight, I'm dumb enough to try
Maybe we'll fall or maybe we'll fly
Life's like music, I won't turn it down
Gotta live it loud
And love's a groove that keeps us spinning round
In this beautiful messed up world
In this beautiful, in this beautiful messed up world
In this beautiful messed up world
In this beautiful, in this beautiful messed up world
Oh, people say, people say that the world is so cruel
But I just don't buy it
There's in beauty in everything life throws at you
If you're looking for the truth
I'm tired of all this pain and negativity
I know it's tough for us all
There ain't no guarantees but I'm dumb enough to dream
Whether I wake with a smile or a scream
Life's like music, I won't turn it down
Gotta live it loud
And love's a groove that keeps us spinning round
In this beautiful messed up world
In this beautiful, in this beautiful messed up world
In this beautiful messed up world
In this beautiful, in this beautiful messed up world
Keep your head in the sky and your feet on the ground
Let your voice become part of the sound
So be right, so be wrong, be whatever you are
In this beautiful messed up world
Life's like music, I won't turn it down
Gotta live it loud
And love's a groove that keeps us spinning round
In this beautiful messed up world
Life's like music, I won't turn it down

Gotta live it loud
And love's a groove that keeps us spinning round
In this beautiful messed up world
In this beautiful, in this beautiful messed up world
In this beautiful messed up world
In this beautiful, in this beautiful messed up world
In this beautiful messed up world
