Unsurfed Waves

Snowblink

"Do you carry your bullet or did it pass through?"
"Do we do we do we do we have some news?"

"Then come to California girl and convalesce
In the lee of the sun and all the trees he keeps as pets"

Whereâ€™re my hills at?
I want my hill legs back

The rod and the frightenâ€™ lightnâ€™ both were he
Sent the chandeliers swinging fro and free

He could turn and turn, a cyclone man was he

--
Do we do we have some news, do, do we?

Whereâ€™re my hills at?
I want my hill legs back

When can we look at what the glacier brought
What it dragged it near a thousand miles and then forgot

Spring is a bed
Thaw is the word

Whereâ€™re my hills at?
I want my hill legs back

A look appeared upon his face
Clear as unsurfed waves
A look appeared on his face
