Feels Like Fire (feat. Dido)

Santana

I'm telling you it's over
Now there's an angel
Holding me, my way's easyEven if you're fallen
Oh, you're struggling
There's still beauty
In what we doSo que sera?
Let's go sailing on
There's a wise man
In every foolI say come back, come in
From the cold into the warm
I feel like fire, guiding you
Back home as darkness fallsSo everyone stands in line
'Cos they wanna stay alive
To wait alone, no dog, no boneAnd then you find it's over
Still it tears your heart
To slip away from the crowdBut if you have what it takes
To return to where
All the world knows your nameThen que sera?
Let's go sailing on
There's a wise man
In every foolI say come back, come in
From the cold into the warm
I feel like fire, guiding you
Back home as darkness fallsI say come home, leave it
All behind and settle down
I feel my love, give me
What I want for all timeSo que sera?
Let's go sailing on
There's a wise man
In every foolI say come back, come in
From the cold into the warm
I feel like fire, guiding you
Back home as darkness fallsI say come home, leave it
All behind and settle down
I feel my love, give me
What I want for all time
For all time, I feel like fire
