

Hate Me

Poppy Brothers

im not getting the pain im due
i said i was sorry and you said i forgive youwhy dont you hate me
of all the words i could have said
i found the one that broke your heartfeathers and wax and you were the sky
took you to the cliff and said you could fly
i held you close and i stuck the dagger in
i was a nightmare you were a dream
the best and the worst and nothing between
i plead guiltyyou had my heart didnt know it would shrink
took you to the coast and knew we would sink
i held you close and i stuck the dagger in
i was a dog and you were a queen
the best and the worst and nothing between
i plead guilty
