Switch Up

Brielle Lesley

Yeah Yeah,
Im so tired of the lien
Why you think you gotta front me
I dont even need to ask you
I know you been in somebody's sheets
You not even smart about it
Calling her when you think that im asleep
We dont need to talk about it
Ima show you what you do to me

Everytime you play me
Im the one who's crazy
you say im over reacting
ima show you how you acting
hurt i gotta do this
but you think im stupid
ima put this dress on
ima show you real dumb

tonight we changing positions
ima be out getting litty
you gon be home looking sicky
i bet you never forget it
dont look for me in the morning
i wont be there when you want it
dont try to blow up my phone cus'
ima just turn that bitch off yeaah

tonight we changing positions (switch up)
tonight we changing positions (switch up)
putting you in my position (switch up)
since you dont know how to listen (switch up)

how it feel to worry bout me?
while im out here running in these streets
prolly hard to sleep without me
sun is up and you aint heard a peep
i didnt even post about it
now you prolly scrolling tryna see
but you dont get a clue about it

ima let you suffer just like me

Everytime you play me
Im the one who's crazy
you say im over reacting
ima show you how you acting
hurt i gotta do this
but you think im stupid
ima put this dress on
ima show you real dumb

tonight we changing positions
ima be out getting litty
you gon be home looking sicky
i bet you never forget it
dont look for me in the morning
i wont be there when you want it
dont try to blow up my phone cus'
ima just turn that bitch off yeaah

tonight we changing positions (switch up)
tonight we changing positions (switch up)
putting you in my position (switch up)
since you dont know how to listen (switch up)
