

# Soul Sick

**Rob Thomas**

I guess he didn't feel that good today  
He headed to the airport on his motorcycle  
Said he liked the sound it made  
And then he mumbled to me something about  
Love and what it cost He said, "If all the world is over  
Then man, I would get lost if I were you  
Now what would you do?" I remember shades of summer  
The winter sets and it's gone, yes  
But it's all good now take it easy  
Don't get soul sick  
The winter sets and it's gone, yes  
But it's all good now I guess that we were all a shade of green  
We catered to the postcard view  
'Cause our lives weren't in half the bloom  
Of his worst day
