

No More, No Less

Collective Soul

Here I lie motionless
Catch me if you can!
My properties of no defense
So strike at your command
But, don't bring me down, alright
Don't bring me down
'Cause there's purpose for this night
Save me, come tomorrow
Lead me to my urgency
See I'm no more, no less
Of an Angel than you'd have me be
So let's shake it like this
Steady here I cast my lines
Only to expose
A weaker sense and no constraint
Now my true self shows
But, don't bring me down, alright
Don't bring me down
'Cause there's promise in this night
Save me, come tomorrow
Lead me to my urgency
See I'm no more, no less
Of an Angel than you'd have me be
So let's shake it like this
Just a little bit like this
Don't bring me down, alright
Don't bring me down
'Cause there's promise in this night
Save me, come tomorrow
Lead me to my urgency
See I'm no more, no less
Of an Angel than you'd have me be
Yes, save me, come tomorrow
Lead me to my urgency
See I'm no more, no less
Of an Angel, Angel
So let's shake it like this
A little bit, just like this
A little bit, a little bit like this

A little bit, a little bit
A little bit, we'll shake a little bit like this
