

# Alpha Omega

## Architects

Hopeless in deep space  
You made us wait like you used to  
I was an utter disgrace  
You made us sing "hallelujah" And now it's all gone  
Every time we tried  
We cannot pity, we cannot stand around  
Nervous for the hope we ache to find  
Every time we tried Which one are you?  
Two sides of a coin  
Taking pride in plenty of good advice  
Win or lose our minds  
In a picture, perfect  
Every time we've tried Nervous for the hope we ache to find  
(We cannot pity, we cannot stand around)  
Every time we tried  
(Every time we tried)  
(Every time we tried) We've got to say  
All feelings aside  
Every new life rises  
We all build together (We all see your call)  
Win or lose our minds  
Win or lose our minds  
In a picture, perfect  
Every time I tried Break the mold  
Let's shake the ground  
Wreak havoc  
[x8] We all strike a match  
And burn this ordinary life  
When the sun rises high  
You'd best pray you're the better man  
[x2] We've all gotta take to the wall soon  
Or break free or burn it to the ground This ain't no ordinary life [x4]
