Monkey!!! Knife!!! Fight!!!

Minus The Bear

?It's getting late?, she said
She touched my face
?Let's stay out late as we can?
We'll drive around the lake
Just a little too fast
My eyes on the lights
Her hand on my shoulder
Yeah, windows down
The wine in our heads
The city lights just blur
The city lights just blur
Let's go out on a dock
We'll bring a bottle and a blanket
And everything, yeah, everything
Everything is going our way
Is going our way
We'll drive around the lake
Just a little too fast
My eyes on the lights
Her hand on my shoulder
Yeah, windows down
The wine in our heads
The city lights just blur
Yeah, the city lights just blur
Lean in to me, lean in to me
Lean in to me, lean in to me
Lean in to me, lean in to me
Lean in to me, lean in to me
Lean in to me, lean in to me
Lean in to me, lean in to me
Lean in to me, lean in to me
We'll drive around the lake
Just a little too fast
My eyes on the lights
Her hand on my shoulder
Yeah, windows down
The wine in our heads
The city lights just blur
Said, the city lights just blur

The city lights just
