

The Darkness of My Mind

Trivium

[Verse 1]

A wreath built of withered roses
How long till it decomposes
I don't think I can make it through this life
Without you
Of all the storms I've had to weather
You were my guiding light
In our last moments spent together
I tried to help you fight[Pre-Chorus]

I plead with sorrow
(as it swallows me down)
I'm sinking in misery
(won't you finally let me drown)[Chorus]
The darkness of my mind
Where life and death divide
The ending of mankind

Demise is our design(A wreath built of withered roses)[Verse 2]

I curse the heavens for their thievery
You robbed me of my light
Faith is rewarded with your treachery
I've lost my will to fight[Pre-Chorus]

I plead with sorrow
(as it swallows me down)
I'm sinking in misery
(won't you finally let me drown)[Chorus]
The darkness of my mind
Where life and death divide
The ending of mankind

Demise is our designThe darkness of my mind

I seek, what will I find
There's nothing when we die
Fear leave me behind[Bridge]
How much longer must I face

A world imploding, falling graceHow much longer must I face

My self-exploding, I'm erased[Interlude]

Light becomes darkness

Light becomes darkness[Guitar Solo]Light becomes darkness

Light becomes darkness(A world imploding, falling grace)[Chorus]

The darkness of my mind

Where life and death divide
The ending of mankind
Demise is our design The darkness of my mind
I seek, what will I find
There's nothing when we die
Fear leave me behind
