Guy Like Me

Black Train Jack

When I saw her, she looked so good
I wanted her to be with me and if I asked
I thought she would
She didn't feel the same
She had her own life to lead
What the hell could I have been thinking
That she would be with a guy like me
Guy like me
I fell in love once
No
I just never knew the deal
I'll never love again and be the fool
To something I thought was real
She didn't feel the same
She's got her own life to lead
What the hell could I have been thinking
That she would be with a guy like me
Guy like me
Once I thought, that everything was cool
But like every guy in love
She plyed me for the fool
