

# Hello Stranger

Walter "Wolfman" Washington

Hello stranger

Hello stranger

Who is that person in the mirror, it's not me

Whatever happened to the one that I used to be?

Is she just another fading memory? Hello stranger

Hello stranger

Hello stranger

Hello stranger

Every night you're always in my bed

Every day you stay inside my head Oh, how I wish that I was there instead

Of some sad stranger

Some sad stranger

Hello stranger
