

# Breathe Easy

## Hodera

Can you remember the first time  
that they called you annoying?  
Now when you talk for too long  
your throat tightens you keep apologizing

And the light  
Leaves your eyes  
And the words get lost  
On your tongue

Well can you breathe?  
Can you breathe?  
Well can you breathe?  
'Cause I can't breathe,  
Breathe easy.

Sometimes I call you at night and  
pretend that I'm drunk when I'm sober  
Tell you everything on my mind but  
then laugh it off in the morning

And the light  
Leaves my eyes  
And the words get lost on my tongue

Well can you breathe?  
Can you breathe?  
Well can you breathe?  
'Cause I can't breathe

And when the light  
Leaves her eyes  
And the words get lost on our tongues

And when the light leaves our eyes  
And the words get lost on your tongue  
Breathe easy  
Breathe easy  
Breathe easy
