

Odette

Matthew Good

Hey midnight, turn on your lights
And roll out your stars
Roll out your stars
I look tired, but I--I feel wired
And my body hums
Like it's coming undone
Don't you lie to me
Nothing's already what it seems
And even you can spot the fool
Odette

Make me forget
What I've done
What I've become
Don't wanna be so wide awake
Don't wanna be so wide awake
I see just how you take
Don't wanna be so wide awake
Hey midnight, turn on your lights
And roll out your stars
Roll out your stars
