

Clone

Metric

Call me out
My regret
Only makes me
Stronger yet Nothing Ive ever done right
Happened on the safe side
Its the other way
Im missing everyone I know now Its too late in the day
Too late in the day
To take you on
All the rides I was afraid to tell you that Back to that photograph
Can you clone me?
I look like everyone you know now Its too late in the day
Too late in the day
To turn it around
And change my mind Its too late in the day
To take you on
All the rides Its too late in the day
To tell me
Im off the path
Were already in the aftermath Call me out
My regret
Only makes me
Stronger yet Its too late in the day
Too late in the day
To turn it around
And change my mind Its too late in the day
To take you on
All the rides Its too late in the day
To tell me
Im off the path
Were already in the aftermath
