Clone

Metric

Call me out
My regret
Only makes me
Stronger yetNothing Ive ever done right
Happened on the safe side
Its the other way
Im missing everyone I know nowIts too late in the day
Too late in the day
To take you on
All the ridesI was afraid to tell you thatBack to that photograph
Can you clone me?
I look like everyone you know nowIts too late in the day
Too late in the day
To turn it around
And change my mindIts too late in the day
To take you on
All the ridesIts too late in the day
To tell me
Im off the path
Were already in the aftermathCall me out
My regret
Only makes me
Stronger yetIts too late in the day
Too late in the day
To turn it around
And change my mindIts too late in the day
To take you on
All the ridesIts too late in the day
To tell me
Im off the path
Were already in the aftermath
