

Dub Mentality

Asian Dub Foundation

Dub is the place we come to argue and debate
Isn't just a backdrop for our herbal intake
In this time we fill the space with noise Black noise will be a sound you can't avoid
We're using our voices to reflect our reality
Using dub as our foundation 'cos we've got dub mentality Listen to the sound of the drum and the bass
Different communities meet up in the same place
We are mixing the flavor to suit every taste
This music have the power for all of the human race [Incomprehensible] dub is the teacher, jungle is the preacher
Dub education through the jungle a go reach ya
Dub is the teacher, jungle is the preacher
Dub education through the jungle a go reach ya [Incomprehensible] cut and splice and regeneration
Militant mix and equalization
These are the methods for a serious operation
Pushing back the borders of your musical civilization So without prejudice and without delay
To the sound of the Asian Dub Foundation today
So without prejudice and without delay
To the sound of the Asian Dub Foundation today Welcome to the future, don't stop
In this time we fill the space with noise
Black noise will be a sound you can't avoid Listen to the sound of the drum and the bass
Different communities meet up in the same place
We are mixing the flavor to suit every taste
This music have the power for the entire human race [Incomprehensible] dub is the teacher and jungle is the
preacher
Dub is the teacher, and we say jungle is the preacher
Dub is the teacher, jungle is the preacher
Jungle is the preacher, yeah dub is the teacher Dub is the teacher, jungle is the preacher
[Incomprehensible]
Jungle is the preacher, we say, jungle is the preacher And a dub is the teacher, jungle is the preacher
Dub education through the jungle a go reach ya
Dub is the teacher, jungle is the preacher
Dub education through the jungle a go reach ya Dub is the teacher
