

# Big Lights

Sammy Adams

We over here on the Ease side  
Girls dressed up clothes skin tight  
Roll one cause we're smokin' up inside  
So fly you don't even need an invite Fade off to the next spot  
Cigarette smoke shots where we left off  
And I gotta fin a place to drop my guest off  
Cause I'm tryna go in on this next bra HaTop four with her butt so strong  
European girl and legs so long Bright lights, so big  
Never had an idea they could get like this  
Bright lights, so big  
Never did I think that they could get like this Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright We over here on the Ease side  
Girls dressed up clothes skin tight  
Roll one cause we're smokin' up inside  
So fly you don't even need an invite We over here on the Ease side  
Girls dressed up clothes skin tight  
Roll one cause we're smokin' up inside  
So fly you don't even need an invite Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright Lights lights black and white  
Every color flow  
They so bright they so bright

So so bright  
It's so bright Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright So so so so so so so bright  
It's so bright So so so so so so so bright  
It's so bright So so so so so so so bright  
It's so bright So so so so so so so bright  
It's so bright So so so so so so so bright  
It's so bright Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright Lights lights black and white  
Every color flow  
They so bright they so bright  
So so bright  
It's so bright  
It's so bright
