## Crystal Castles

Cross my heart and look into the sea
Cross my arms and turn to me
Turn to me instead of telling the truth
And now, now I can honor you

Since you've left, all we're talking about
Is different problems
While I'm dragging my heels
So long to be my mother
So long to be my friend

Will you talk to me? I'm real bored
We're in the house, looking at the dark
If you learn to follow me
I'll know that you can honor me

Since you've left, all we're talking about
Is different problems
While I'm dragging my heels
So long to be my mother
So long to be my friend

You're covered in the lotion
That was inside of me
I'll throw you in the ocean
I'll pass you to the sea

You're covered in the lotion
That was inside of me
I'll throw you in the ocean
I'll pass you to the sea

If this is love
Then I'm fucking proud of it
If this is love
Then I'm fucking proud of it

If this is love
Then I'm fucking proud of it
If this is love

Then I'm fucking proud of it
