

Do What You Do

Martina McBride

Slow down, that's right
Give it all you got
Yeah, you got the right stuff
Kick back, let go
Trust yourself to know
Yeah, what you got is good enough
Hey, don't give 'em what they think they want
'Cause they don't have a clue
Yeah, if you really wanna give 'em somethin' different
Somethin' to sink their teeth into
Well baby, then you just do what you do
All eyes were on Alice
They laughed and made her cry
Yeah, she was a little different
But hey, you know what?
She found a way to fly, you see Alice
She got her strength from the inside
Hey, don't give 'em what they think they want
'Cause they don't have a clue
Yeah, if you really wanna give 'em somethin' different
Somethin' to sink their teeth into
Well baby, then you just do what you do
The cost of livin' just went up today
As soon as you started doin' things your way
You'll be shakin' 'em off your coattails from every side
They'll be tryin' to catch that free ride
Hey, don't give 'em what they think they want
'Cause they don't have a clue
Yeah, if you really wanna give 'em somethin' different
Somethin' to sink their teeth into
Well baby, then you just do what you do
Do what you do, yeah
Do what you do
Yeah yeah, yeah yeah
Yeah yeah, yeah yeah
