

Keep Fighting

Mark Wilkinson

When your life is a mess
You're not quite at your best
Take a breath, take a break
Know we all make mistakes

If you feel all alone
Lights are off, empty home
Don't despair, cause in time
All these things, they'll be fine

But if you stop fighting
I'll stop fighting
There's just no hope anymore

When you're down and you're gone
There's no help to call on
When it's black all around
No more sun to be found

Place no fear
No in your eyes
Cause I'm here
I'm right by your side

And if you keep fighting
I'll keep fighting
We'll both keep fighting together

If you're all
If you're all on your own
When your hopes
They are all blown

Don't despair
Cause in time
All these things
No, they'll be fine
No, they'll be fine

But if you stop fighting

I'll stop fighting
There's just no hope anymore

So with hope in your mind
Have no fear in your eyes
You know that together we'll stay
We'll stay

And if you keep fighting
I'll keep fighting
We'll both keep fighting together
Forever....forever
