

Shoebox

Parthenon Huxley

I kept your picture in my shoebox
I kept your picture in my shoebox
I kept your picture in my shoebox
 Right now is all we need
 'Cause this feels pretty good
 And I would stop the world
 Just to give us more time
 I kept your photograph
 And sometimes I take a look
 Do you think I should
 Are you gonna leave
 Is she a better girl
 And does she know about me
Hey you, I think you're going in the wrong direction
 Hey you, I could be everything you want
And it's true you must have been something special to me
'Cause after all this time I kept your picture in my shoebox
 Tonight was you and me
 And it felt pretty good
 Just like we stopped the world
 For a minute in time
 And then you made me laugh
 About all the things we did
 Do you think we should
 Did you have to leave
 And the other girl
 Does she know about me
Hey you, I think you're going in the wrong direction
 Hey you, I could be everything you want
And it's true you must have been something special to me
'Cause after all this time I kept your picture in my shoebox
 I hear you talk but your mouth is closed
 You say the words and let me know
 I can't speak I'm petrified
 Wanna tell you what I feel inside
 I kept your picture in my shoebox
 I kept your picture in my shoebox
Hey you, I think you're going in the wrong direction
 Hey you, I could be everything you want

And it's true you must have been something special to me
'Cause after all this time I kept your picture in my shoebox

I think you're going in the wrong direction

I could be everything you want

And it's true you must have been something special to me
'Cause after all this time I kept your picture in my shoebox
