

# Hand of Dimes

[Terry Reid](#)

There must be many times  
I had a hand of dimes  
And every phone I tried  
Was broken down To the bottom line  
That these are games of time  
When on the street I don't look  
And I'll...  
See you everywhere Don't mean to say  
That I ain't gonna try now  
That when I see it's in you're eyes  
...and it's true  
Well you don't have to leave the floor  
When you can't deal with the feeling ...any more There must be many lines  
That make a laugh of times  
While we're out running round  
And having fun Give me a special sign  
Pick up this call of mine  
It's rung out fifteen times  
And I'm staring into space Don't mean to say  
That I ain't gonna try now  
That when I see it's in your eyes  
I know it's true  
But who knows what feelings stand for sure  
Except that I don't really want to leave her anymore Who's there to say  
That I ain't gonna try now  
That when I see it's in your eyes  
I know it's true  
Who knows what really stands for sure  
When you can't deal with this whole thing anymore Cos I can't stand it being out here  
On my own anymore  
Help me deal with this feeling  
I'll be sure
