Better Man

Fool Boy Marley

Tell me what I gotta do just to make it up to you, I'm down for it.
Girl I'll do all I can just to be a better man, I'm down for it.
I don't think you know, I don't think you know, I'm down for you.

You, you got some things that you ain't telling me
I, I saw some things that I wish I never seen
I did some things I wish I never did
I take the blame for this relationship
But don't you hold that shit against me
I thought we was moving on
It feels like I lost you
I don't know what's going on
Ever since you blocked me I can't even call your phone
I know you be out and when you out you ain't out alone
Damn girl what you doing, where you at, who you with
Damn it girl I miss you, you should know that you be missed
Why can't you forgive me, I forgave you, let's forget
You say you want your space was that to let somebody in
You say you still getting back with me, was you just trying to get back at me?
I guess it's just payback at me
Girl, I just want you back with me

I know that you want your space
How long do I got to wait?
You won't let me stay, I got to go now
I know that you want your space
How long do I got to wait?
You won't let me stay, I got to go now

Tell me what I gotta do just to make it up to you, I'm down for it.
Girl I'll do all I can just to be a better man, I'm down for it.
I don't think you know, I don't think you know, I'm down for you.

Some much I been through
So much I done lost
When I need to talk, who am I to talk to?
I need you to feel me baby, don't you let go
I don't have it in more, I won't hurt you no more
I must admit girl I was young and I was stupid
It isn't worth the connection we are losing

I learned my lesson I don't have any excuses
You are my queen and Ima show you ima prove it

I know that you want your space
How long do I got to wait?
You won't let me stay, I got to go now
I know that you want your space
How long do I got to wait?
You won't let me stay, I got to go now

Tell me what I gotta do just to make it up to you, I'm down for it.
Girl I'll do all I can just to be a better man, I'm down for it.
I don't think you know, I don't think you know, I'm down for you.
