Summerhead

Cocteau Twins

My dreams zoom with us
My tears have run away
Our goal, goal collapsed
Energy of lonesome goalMay pushes, leaves and never feels
Shame casts offense
Shame casts her face
Star reason starring of the placeSafe at last
Seeing my thoughts are in order
Safe, fallen down this way
I want to be just what I amSteal more treasures, steal more gifts
This will size creative lies
Until we drop
It won't free you to go look for the keyMy consciousness don't look away
What might keep them, but a slave
What might keep them, but a slave
My truth's not even, even half of what'sSafe at last
Seeing my thoughts are in order
Safe, fallen down this way
I want to be just what I amSafe at last
Seeing my thoughts are in order
Safe, fallen down this way
I want to be just what I amSafe at last
Seeing my thoughts are in order
Safe at lastSafe at last
Seeing my thoughts are in order
Safe, fallen down this way
I want to be just what I amSafe at last
Seeing my thoughts are in order
Safe, fallen down this way
I want to be just what I am
