

You Are The World

Live

If you've ever known love
If you've ever known peace
If you've ever known joy
Make sure that you are on time
If you've ever known war
If you've ever known pain
If you've ever said, "No"
Make sure that you are on time
You are on time
That you are on time
We are on time
For you are the world
For you are the world
For you are the world
For you are the world
[Incomprehensible]
If you've ever known love
If you've ever known peace
If you've ever known joy
Make sure that you are on time
That you are on time now, love
If you've ever known war
And if you've ever known pain
And if you've ever said, "No"
Make sure that you are on time now
You are on time
That you are on time now, yeah
That you are on time
For you are the world
For you are the world
For you are the world
For you are the world
Fighting, mating, warring
You are all this now
Be aware, not scared
Look at me now
Silence I say
You are the world
You are the world
You are the world
You are the world
If you've ever known love
If you've ever known peace
If you've ever known joy
Make sure that we are on time
