

# Cynical

## Enter the Haggis

Depleted uranium is used on the ends of bullets  
And on the ends of shells because it is so hard  
Almost any armament is vulnerable  
To something that is tipped with depleted uranium In the cities and towns of Afghanistan  
In the heart of the Balkans, the heart of Iraq  
Not your Grandfathers style of deadly munitions  
Its silent and deadly years after the mission Depleted uranium is a war crime  
Depleted uranium is a war crime Gonna cut through their armor, then cut through your lungs  
If you make it home alive, youll still die young  
A greedy gang of liars, yeah, weve seen it all before  
A moneymaking scheme led by war-profiteering whores Depleted uranium is a war crime  
Depleted uranium is a war crime They were throwing it away  
Until they figured out they could use it for armament Half-life, 4.5 billion  
Half-life, youll waste away  
Half-life, 4.5 billion  
Half-life, youll waste a Weve heard their lies before and we know theyre lying again  
Feels like a deja vu of Agent Orange and Vietnam  
Weaponry so sadistic, it is hard to comprehend  
War profits surge with every breath by Uncle Sam Depleted uranium is a war crime  
Depleted uranium is a war crime  
Depleted uranium is a war crime We went to a hospital in Southern Iraq  
And a woman was there with a very deformed child  
And her husband had been in the Iraqi Army  
And had been in the battles in Southern Iraq  
And came home and they produced a baby  
That was, very severe malformations Both the Leukemia rates in children  
And malformations at birth had increased by six hundred percent  
And it was clearly an epidemic where all this DU had been dumped  
It becomes a dust that can be inhaled  
And infect the blood stream and the rest of the body And it was the opinion of the doctors there  
That this was caused by depleted uranium  
They simply saw this as being a direct result  
Of the war by the United States Half-life, 4.5 billion  
Half-life, we waste away  
Half-life, 4.5 billion  
Half-life, we waste away Half-life, 4.5 billion  
Half-life, we waste away  
Half-life, 4.5 billion  
Half-life, we waste away The doctor said, Women at the time of birth

Dont ask if its a boy or a girl, they ask, 'Is it normal?'The military denies first and then after the evidence builds  
to the point

Where they can no longer deny, then they do the research  
Thats what happened in the Vietnam era around Agent Orange  
And I suspect and Im worried that thats what will happen this time
