

This Time (Serious Symptoms, Simple Solutions)

Jarryd James

 Last time we were in it, in it.
 Translating our feelings with it.
 Now we're right back in it, it.
 All I, all I can say is,
 hold me back, tell me something.
 Something that will bring me closer to you.
 Had enough, fall back in
 Follow for the things that brought me.
 Love right love right love can't make it now,
 can we can we can't save it now.
 Our love our love won't make it now.
 No one really wins this time,
 no one really wins this time around,
 no one really wins this time, nobody.
 Last time we were in it, in it.
 We had, we had nothing in between us
 Now we're right down in it, in it.
 Million different reasons you should hold me,
 hold me back, tell me something.
 Something that will bring me closer to you.
 Had enough, fall back in,
 follow for the things that brought me.
 Love right love right love can't make it now,
 can we can we can't save it now.
 Our love our love won't make it now.
 No one really wins this time.
 No one really wins this time around.
 No one really wins this time, nobody.
 Love right love right love can't make it now.
 Can we, can we can't save it now.
 Our love our love won't make it now,
 No one really wins this time.
 No one really wins this time around.
 No one really wins this time, nobody.
 No one really wins this time.
 No one really wins this time around.
 No one really wins this time, nobody.
