We Went So High

Lesley Gore

We went so high
As if we had no weight
As if we thought we both could flyWe went so high
We knew it wouldn't last
We flew too high we flew too fastAnd whenyou think you're safe and sound
Anywhere you go from there is downWe went so high
We left it all below
We found another place to goWe went so high
We'll never come so near
We'll never see it quite so clear'Cause when you think you're safe and sound
Anywhere you go from there is downWe went so high
So high
