

We Went So High

[Lesley Gore](#)

We went so high
As if we had no weight
As if we thought we both could fly We went so high
We knew it wouldn't last
We flew too high we flew too fast And when you think you're safe and sound
Anywhere you go from there is down We went so high
We left it all below
We found another place to go We went so high
We'll never come so near
We'll never see it quite so clear 'Cause when you think you're safe and sound
Anywhere you go from there is down We went so high
So high
